### WHAT IS EASY FORMAT® ?

EASY FORMAT® is a superior system of music notation enabling the reader to sight read, memorize and analyse a score much more efficiently than the traditional system of notation.

EASY FORMAT® is punctuation added to the music:

- 1) Every musical phrase (usually four bars) is carefully fitted into a single line.
- 2) The beginning of each musical section is numbered and slightly indented to the right (whenever possible.)
- 3) All the musical lines/phrases belonging to the same section are numbered for easy reference.
- 4) The end of each section is indicated by a double bar.
- 5) The basic chord changes are always given.
