7 elementary piano solos in romantic style

## martha mier

*reflections, book 1* is a collection of seven elementary piano solos written to appeal to students who enjoy playing in the Romantic style. Each solo will aid in developing skills related to performing musically with expression. Lyrical melodies above rich harmonies encourage the shaping of phrases. In addition, dynamic markings were chosen carefully to help the student develop finesse within the phrases.

I hope you enjoy the romantic characteristics of this collection, my "reflections" of musical moods!
